

SAFETY DATA SHEET (SDS)

Section 1. Identification

Product identifier	LORIS 2% CHG SOLUTION
Other means of identification	Category of product 107-00, 108-00
Recommended use and restrictions on use	Antiseptic (containing 98 % of water)
Initial supplier identifier	Lernapharm (Loris) Inc., 2323 Halpern, St-Laurent (Montreal) Québec, Canada H4S 1S3 Telephone: 514-331-4634
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number 613-996-6666

Section 2. Hazard identification

Classification of hazardous product (name of the category or subcategory of the hazard class)	Not regulated
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)	None mandatory
Other hazards known	None

Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Chlorhexidine digluconate	18472-51-0	2

Section 4. First-aid measures

Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
Skin contact	IF ON SKIN: Rinse skin with water (5-10 minutes).
Eye contact	IF IN EYES: Rinse eyes with water (5-10 minutes).
Most important symptoms and effects (acute or delayed)	None
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.

Section 5. Fire-fighting measures

Specific hazards of the hazardous product (hazardous combustion products)	Carbon oxides and other irritant/toxic gases and fumes.
Suitable and unsuitable extinguishing media	In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.
Special protective equipment and precautions for fire-fighters	During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).
Methods and materials for containment and cleaning up	Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling	Avoid contact with eyes, skin and clothing. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.
Conditions for safe storage, including any incompatibilities	Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store away from incompatible materials (Section 10).

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)	Exposure limits: ACGIH – TLV-TWA & PEL-TWA none.
Appropriate engineering controls	General ventilation normally adequate. Make emergency eyewash stations available in work area.
Individual protection measures/personal protective equipment	No respiratory protection is required with adequate ventilation under normal use. Practice good personal hygiene after using this material.

Section 9. Physical and chemical properties				
Appearance, physical state/colour	Clear colorless liquid		Vapour pressure	Not available
Odour	Neutral		Vapour density	Heavier than air
Odour threshold	Not available		Relative density	1.01
pH	Not available		Solubility	Soluble
Melting/freezing point	Not available		Partition coefficient - n-octanol/water	Not available
Initial boiling point/range	Not available		Auto-ignition temperature	Not available
Flash point	Not available		Decomposition temperature	Not available
Evaporation rate	Not available		Viscosity	Not available
Flammability (solids and gases)	Not available		VOC	Not available
Upper and lower flammability/explosive limits	Not available		Other	None known
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescribed.				
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None				
Conditions to avoid (static discharge, shock or vibration)				
None				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				
Section 11. Toxicological information				
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)				
Causes very mild skin and eye irritation.				
Symptoms related to the physical, chemical and toxicological characteristics				
None				
Delayed and immediate effects (chronic effects from short-term and long-term exposure)				
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ Toxicity – Single Exposure – No data available; Specific Target Organ Toxicity – Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)				
CAS 18472-51-0 none ATE not available in this document.				
Section 12. Ecological information				
Ecotoxicity (aquatic and terrestrial information)				
No data available for this product.				
Persistence and degradability	No data available			
Bioaccumulative potential	No data available			
Mobility in soil	No data available			
Other adverse effects	No data available			
Section 13. Disposal considerations				
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
Not regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
Not regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
Not regulated				
Special precautions (transport/conveyance)	None			
Environmental hazards (IMDG or other)	None			
Bulk transport (usually more than 450 L in capacity)	Possible			

Section 15. Regulatory information	
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL
Safety/health/environmental outside regulations specifics	
None	
Section 16. Other information	
Date of the latest revision of the safety data sheet	July 06, 2023 version 4
Corrections	Section 7; 8;12;
References	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
Abbreviations	
ACGIH	American Conference of Governmental Industrial Hygienists
ATE	Acute toxicity estimate
CAS	Chemical Abstract Service
DSL	Domestic Substance List
IARC	International Agency for Research on Cancer
IATA	International Air Transport Association
IMDG	International Maritime Dangerous Goods Code
LC	Lethal concentration
LD	Lethal Dosage
NIOSH	National Institute for Occupational Safety and Health
NTP	National Toxicology Program (U.S.A.)
OSHA	Occupational Safety and Health Administration (U.S.A.)
PEL	Permissible Exposure Limit
STEL	Short-term Exposure Limit
TDG	Transport of dangerous goods in Canada
TLV	Threshold Limit Value
TSCA	Toxic Substances Control Act
TWA	Time Weighted Average
WHMIS	Workplace Hazardous Materials Information System
To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
